

Beginning on Friday, June 29 approximately 7000 City of Madison voters who reside in Madison County will be receiving new voter registration cards. If you are one of those 7000 residents, please don't throw the new cards away! The new card will indicate that you have 2 different places to vote. The poll location at the top of the card is where you will go to vote for any County/State/Federal election, for example the November Presidential election. The bottom voting location is your voting location for municipal elections, the August Mayor/Council election. Below is an example of how your new voter card will look.
